

Module 3 – Effective Assistive Technology Implementation

Module Summary Activity

Before completing this summary activity, review the video you watched during the online session "[Assistive Technology Enabling Dreams](#)." (To find the video, go to www.YouTube.com and search for "Assistive Technology Enabling Dreams").

1. Refer to the video to answer these two questions:

- What are some of the reasons named for students not receiving assistive technology?
- What were some of the effective implementation strategies named?

2. True or False: Elements of effective AT implementation include...

- | | | |
|---|---|-------------------------------|
| T | F | Consideration of student need |
| T | F | Team collaboration |
| T | F | Systematic approach |
| T | F | Flexibility |
| T | F | Ongoing review |

3. List two potential barriers to effective AT implementation.

4. Briefly explain the term "AT abandonment".

5. For each of the steps in an effective AT implementation plan, describe what your role on a student's team would be...

Step	Your Role
1. Gather information	
2. Establish IEP goals	
3. Conduct AT trials	
4. Select appropriate technology	
5. Develop AT implementation plan	
6. Integrate technology into daily lessons	
7. Plan for follow up and transition
